Since our article of last week, headed "Very Important," we have again reviewed the laws, and all the acts of the Legislature bearing upon the subject, and have consulted with several legal gentlemen, all of whom, after a full investigation of the facts, have arrived at the same conclusion with us, that there is no provision for another Legislative Assembly, and that the defect can only be cared by a special session of the Legislature, or by act of

The Republican movement has met with such poor encouragement from the people, we are apprehensive but little more will be heard from it; that, in short, its prime movers will back down and abandon the enterprise. We understand that two of the editors of the journals mentioned above as in favor of a Republican organization, deny that they are in favor of it until after the October elections. A similar feeling pervades this entire community, and I opine that Pottowatomie county has to-day polled a vote nearly double that of any previous election, and more than nineteen-twentieths of said vote is for the rejection of the proposition.

Improvements are going on rapidly in town, and people are beginning to feel somewhat reconciled to the hard times. Another large hotel is going up on Main street, nearly opposite the new ferry. The river continues high, though much

lower than it has been, at times, during the past two weeks. There was a great rise here on the 18th and 19th ult., and much damage was done in certain localities. Every stream was swollen to an amszing height. The Big Blue was higher than it has been known to have been since 1850. I am told that several acres of the town of Manhattan, at its month, were washed away, and fears were entertained by some, for the safety of the inhabitants. I believe, however, that no one suffered any serious injury. More anon.

For the Berald of Freelow. AMERICUS, August 8, 1848.

The time is coming when small tree will be large and large, fields will be small. Americus is situated on the Eight Mile Valley of the Necsho, near the center of Breckenridge county, in Kansas Territory, surrounded by as good a farming y, surrounded by as good a farming successfully laid the telegraph cable. facilities for building a town as there are in central Kausas, and yet we don't hear so much puffing and blowing in the pain central Kansas, and yet we don't hear pers as there is about the rest of the new Queenstown on Saturday, 17th day of towns in Kansas. I think that it is beause nature has fixed the place for the town of Americus, and when a man sees the surrounding country, he has no more for Valencia Island, and the Ningara and to say, only to ask the price of property Gorgon for this place. The latter arrives in town. We have in the town of Americas a good hotel, kept by Mr. Thompson, tical, or 1950 statute miles from the Telelarge school, going on now, with various of this distance the water is over two miles in depth.
